## OPPOSE HALSTEAD

The Cincinnati Editor Not Likely to Go as the American Minister to Bismarck's Country.

His Attack on Republican Senators in the Payne Case Comes Up to

New Goes Through, Owing to Voorhees Championship-Louis Wolfley Confirmed as Governor of Arizona.

WASHINGTON, March 28 .- The executive ession of the senate lasted between two and three hours this afternoon and was onfined largely to a discussion of the mination of Murat Halstead, as minister to Germany. Before that came the nomination of J. C. New to be consul-general to ondon and Lewis Wolfiey to be governor of Arizona all of which were pending, and were confirmed. The final attempt of the opposition to defeat New's confirmation was based upon the assertion that his pa was based upon the assertion that his paper, the Indianapolis Journal, had published articles reflecting upon the private character of President Cleveland. This charge was warmly denied by Senator Voorhees and the nomination confirmed. The committee on foreign relations favorably reported all the diplomatic nominations of yesterday, but in the case of Halstead it was not unanimous. On a motion to confirm his nomination, the nays were in the majority, Senators Teller, Plumb, Ingalls, Farwell and Cullom voting with the democrats. Sherman moved to reconsider the vote, and on that motion a long debate ensued, in the course of which the ground of objection to Halstead was disclosed. When the senate refused to enter upon an investigation of the election of Senator Payne, of Ohio, Halstead, whose paper, the Cincinnati Commercial-Gazette, had strongly urged an investigation, made uncomplimentary allusions to the republicans who voted against the investigation. The feeling against the investigation. The feeling against the investigation from the part of the senators who fell under his displeasure at that time is very bitter, and one of them is reported to have said to President Harrison this morning that Halstead could not be confirmed; that the senators whom he had criticised would not vote for him. The motion to reconsider was pending when the senate adjourned. The vote on the confirmation was taken before there were any speeches. per, the Indianapolis Journal, had pub-

WASHINGTON, March 28.-First Assist

ant Postmaster-General Clarkson was questioned to-day concerning certain newspaper criticisms directed against his policy in the appointment of fourth class post masters. In answer, he said that practically all changes thus far had been made for other than political reasons. A large number of appointments made during the last administration were bad, a consideracessor will be determined upon at an early ble number had been found to be delinquent in their accounts, and other change had been made to secure better locations for the offices, and in many cases appointments had been made with a view to the removal of offices from the vicinity of saloons. In every case of removal there have been good and sufficient cause therefor. "Perhaps," he added, "it is not generally known that my predecessor, within the month or six weeks prior to March 4, made over one thousand appointments of fourth-class postmasters for the purpose, apparently, of thrusting them upon this administration. This course has not been pursued, to my knowledge, by any previous administration. During the last several weeks of President Arthur's term, not a single fourth-class postmaster was appointed, except in rare instances, where the exigencies of the service demanded it, and when Postmaster-General Hatton resigned there were more than 3,000 resignations on file in his office. The commissions of the thousand appointees of my predecessor were, of course, withheld, and these vacancies, with others, are being filled as rapidly as possible." had been made to secure better locations

mittee's report. Secretary Fairchils, in a letter dated Jan. 18 last, transmitting the treasury commission's report, says, "The commission has reported to him from time to time recommendations which he has caused to be put into operation, or which have been adopted by the bureau officers of their own motion." The senate committee endorses several recommendations of the commission. There is great, useless and unnecessary red tape in the dispatch of certain work in the war department, the committee says, and by way of illustration shows that one specified case was handled by officers and clerks seventy-six times, and including messenger service initety-nine times. With reference to this case, the report says: "With all due deference, it does seem to the committee that in the transaction and disposition of this item of business it has passed through too many hands, and through the same hands too often, and that there have been too many entries, records and notations, and too much valuable time and iabor consume much less time and cause much less expenditure of labor." The committee to nonly its own silk, but much more, and this accomplished, at the past few years much of the work has been of a desultory character, yet leading to rear cocoons and tree planting is becoming a systemized part of the effort. Until this is general no increase of the product an occur. The United States could in a very short time raise not only its own silk, but much more, and this accomplished, at least \$60,000,000 per annum would be gained. Yet the defection of a few raises have and cry against this new industry.

Lydecker's Neglect of Duty.

Washington, March 28.—At the Lydecker court-martial to-day Robert Condon testified how work was hurried along by order of his employer, which accounted for its bad quality in many cases. Thomas Davis, stone mason, told how bulkheads were built to conceal bad work and how the guide always gave warning of the approach of Lieut. Townsend or Col. Kirlin. If Major Lydecker had visited the tunnel daily the men could not have done half as much bad work as they did. Thomas O'Brien, a sub-inspector, testified that had received \$1 a day extra pay from the contractor in addition to his salary from the government. He figured on the pay decker did not go through the tunnel while, he was there.

Denver, March 28 — The great interest in Colorado in the opening of the Oklahoma lands is evidenced by the throng which crowded the office of the company from the time it was opened this morning. All day the offices were beseiged with anxious people waiting their turn to enroll themselves upon the company's books and learn every possible detail of the country. During the day a private colony of railroad employes, numbering over fifty, appeared at the office and expressed a desire to join them, which was granted. It is thought 250 people will leave with the first band on next Saturday night and more will follow as fast as they can make arrangements to leave.

### CAMDEN'S DISGRACE.

Burial Place Which No Civilized Community Should Tolerate. CAMDEN, N. J., March 28 .- The specia littee of the Camden board of health nted to investigate the condition of the Butler burial ground for colored people in the rear of Evergreen cemetery, developed the fact that the state sanitary and purial laws are being grossly violated and hat serious results might follow during the coming hot weather, and an epidemic of leath-dealing disease might result from the surface interments. Thirty-five tests were made as to what depth bodies have been interred, and found to be eighteen inches below the surface, and in some cases the bodies were only one foot deep. It was also said by the commission that when they dug up several graves the bones were turned up and the feet of the persons were plainly visible. Altogether it is said few bodies are buried as deep as three feet, and the stench of decomposing flesh makes the place a nuisance and breeds disease. Dumpsey Butler, the owner of the ground, is said to be worth \$60,000 and is a magnate among the colored people. He said to night: "I know nothing about the ghastly rumors of dogs going into the graveyard and eating human bones. Dogs might have been seen there, but no complaint has been made to my knowledge. The bodies have been buried without my knowledge and without permits, but who they were I cannot say." A dispatch to the Cologne Gazette from Zanzibar says a party of 230 men landed from the German man-of-war Schwabe and burned Londutche, after a conflict with the natives. The opposition to the Germans is everywhere decreasing. Henry W. Raymond, editor and propri-etor of the Germantown Telegraph, has re-ceived the appointment of private secre-tary to Secretary Tracy. He will assume his duties next Monday. Mr. Raymond is the son of the late Henry J. Raymond, tounder of the New York Times.

It is stated that the discovery of the illicit manufacture of bombs at Zurich furnished a clue to a gigantic plot existing throughout Russia for a new series of attempts on the life of the czar. Numerous arrests have been made in Moscow, Kieff, Odessa and various other places in southern Russia. Nearly 300 members and guests of Prince-ton college alumni enjoyed a dinner last night at the hotel Brunswick, New York. President Francis L. Patton in a speech spoke of the encouraging growth and influ-ence of the college. After June the col-lege will have added to its permanent en-dowment fund \$250,000.

The committee having in charge the banquet to Parnell is continuing its preparations. The difficulty experienced by the committee in finding a suitable place for the entertainment led to the report that the project had been abandoned, but this is now denied. The dinner will probably be given in the royal aquarium.

All the Mills Running FALL RIVER, March 28 .- All the mills are running to-day except the American Linen mill, and nearly all with their full compliment of weavers.
